

Manifesting the Dream of Our Region

Friday 14th October,

4.30 - 6.00 pm London, 6.30 - 8.00 Ankara,

7.00 - 9.30 Tehran, 8.00 - 9.30 Kabul

Earth Healing Webinars

earthhealinggathering.weebly.org

Imagine In Ten Years' Time in the Fertile Crescent, Anatolia, Western Asia :

Increased **connections** between **people** and **nature** through **education** and exchange of experiences that serves build a **peaceful bio-region**.

A deeper connection with **nature** among people giving way to **healing** in human relations. Keeping **hope** alive. Opportunities for **youth education** and **sustainable living** and lively **exchange** in our bio-region. Local and global **mass actions** for **justice** for all beings

More connection between people and between people and land.... **more holistic designs** and better arrangement of **natural resources** and less setbacks by scarcity and conflict over resources.

We have completely new **leaders**, and types of **leadership** in the world. Petroleum is no longer needed. Our **millionth** member joined ...there are similar groups around. There are beautiful and very clever **young people** who just have an example and they copy and improve and there are other groups doing similar things all in our region and in the world.

A new language is arising so we **understand** each other and it's not just the language between people, it is also between humans and animals, between humans and trees. So we all understand each other, so we gain an idea of this **wholeness**. That we are just **one** not separate beings.

We **align** ourselves with **life**, re-enter the big cycle of life and take it in a **humble way, that's our position**. We have a lot to learn from nature, especially when stepping out of scarcity thinking. We have the knowledge and have created autonomous, decentralised, **communities** based on **love** and **trust** between each other. We become **stewards** of our water, food, energy and sustainable community. We learned that **healing earth** and **rewilding nature** in the Fertile Crescent is a **great opportunity** to do all of the above..

People can change their situation, **if we feel each other**.

A shift in human perspective, a remembrance of our humble place in nature. A remembrance of **our belonging to nature**. We have eco-communities in rural setting and they are healing nourishing and protecting their environment. More environmentally conscious people in cities are working for **rights of nature**, as a part of living rights.

Water is flowing freely between our nations. Our **emotions** are flowing so we can hear and hold each other. We are facing and living in **regenerative cultures**, **regenerative agriculture**, **circular economy**, healthy economy. Every one knows about **EDEs**, and the **Gaia education**.

We can really **hear** and **respect** all the being, kind of **interspecies communication**. We hear the animals and the land and know how to respond to the land in a **healing way**. Our **understanding** of our bio-region is really spreading throughout our region. We are **growing spiritually** and have learned to put our **love** into the earth, into practice, in our communities and all our relations.

We are practising how to to **heal**, to recognise the pain, to recognise the problem and also to recognise our ability as human beings to be **steward of life** and give **intention** of healing ... we are here as **cosmic beings** in a journey to reconnect with the divine.
