Weekly compost making sessions were conducted with the village residents in Darabkola, January till July.

Fundraising event in April

Weekly Fundraising art activity, March - September

- In December 2017 two ground breaking events took place for Trees for Hope. 1- We offered the first week of the Eco-village Design Education course in the village of Darabkola in Northern Iran to 16 participants. 2- The Soil Alchemy project started in the same village, in partnership with the local municipality and a local NGO.
- From January we held a monthly webinar for 1001 Earth Healing Acts, through till December.
- We held a presentation in February for the Findhorn Community to report and share our recent activities in Iran.
- In March our parallel fundraising programme 1001 Angels started in Cluny Hill College, Forres. This activity took place every Saturday until 22nd September.
- Our Soil Alchemy, or Community Compost Making, project was held every Thursday from January until mid-July in Darabkola in Northern Iran.
- From June we began our weekly webinars of Gaia Education Design for Sustainability course in Economic Dimension, to continue our Ecovillage Design Education training. Our training is ongoing on a weekly basis all the way through December into next year.

This year Trees for Hope has had a modest social media presence due to our low-profile activities. 2018 had been a grass roots building year for us.
